

POINTS OF PRIDE

Seven Montrose Avalanche players joined the Colorado Soccer Association's Olympic Development Program's pool for 2016, with 2 of those players making the 13 State Regional Camp.

Prior to the expansion of ODP to the Mountain Region, local elite youth players and families had to travel to the Front Range for practices, tryouts, and trainings. Now, these advanced players have the same opportunity to develop their skills as the top elite youth players along the Front Range.

Montrose Avalanche Soccer Club has partnered with several local organizations and businesses to support the health and well-being of Montrose area youth.

Teams have competed and won tournaments locally, in the Front Range and even out of State.

OUR COMPETITION

The Montrose Avalanche Soccer Club participates in the newly formed Mountain Region league. The Colorado Soccer Association recently merged the Western Slope Soccer League and the Southwest Soccer League to form the Mountain Region League, bringing a new level of competition to the club.

The new league creates a unified regional league dedicated to player development, referee recruitment, training and improvement; coaching education, and game improvements to ensure the quality and integrity of soccer for the youth players who reside in the mountains.

The league includes teams from Steamboat Springs, Durango, Crested Butte, Vail, Aspen, Grand Junction, and all teams in between.
